

Title: Report on Resumption of Military Missions in Cambodia

1. This is the Cambodian situation for COVID-19, a pandemic that is disrupting the world order in 2020.

From the conclusion, Cambodia has seen an increase in the number of cases of COVID-19 inflow from July to August, and is currently in a state of lull.

2. Military missionary work

A. **Cambodia Cornelius Discipleship Training:** It was initially planned to be carried out with the Vietnam MCF in May, but it was confirmed that the discipleship training, which was temporarily postponed to October due to the corona, **will not be conducted this year.**

B. **Among the short-term missions** planned for this year, the Australian Adled Church (June) and the Armed Forces Central Church (August) **were canceled.** Short-term missionary work for the Australian team planned in December was also decided to **postpone until next year**, as movement is restricted due to current conditions.

C. Whether the Indochina Cornelius discipleship training was conducted in 2021 and the meeting-related situation

It will be decided by the end of this year in consultation with the MCF presidents of each country.

5. Improvement of surrounding environment at Mahanaim Mission Center in Cambodia

The Mahanaim Mission Center, which entered a field in 2018 in a deserted field where it was difficult to enter the vehicle during the rainy season, is gradually expanding narrow roads to develop the surrounding area this year, and is relocating the site to build complexes here and there.

Since last July, construction is underway to build a housing complex adjacent to our mission center. In addition, a 2 hectare housing complex is planned to be built in the vicinity of the mission center for the veterans.

Even at the end of 2017, when the land was purchased, there was no hesitation about why God made it possible to build a military mission center here, but every year he responds with Amen.
