

## October Newsletter from Mongolian Military Ministry

We thank God for your prayers and partnership for the Military outreaches in Mongolia. "Centurions" Mongolian Military Ministry is starting this year with 7 different ministries and 15 staff members.

Our staff members are faithful and committed. My family is very honored and blessed to serve with them in this wonderful called- ministry.

### Rocky Mountain High program

Things are changed and we need to upgrade our ministry's programs to reach out to soldiers.

In order to learn from ACCTS, Sumya and Undra went to Colorado for ACCTS Interaction in June. We attended RMH program for young cadets and junior officers. It was adventurous and physical challenging trip. We are going to conduct RMH in Mongolia next Summer.

In this September some junior officers did the Outdoor program like RMH. It was very interesting and effective time. We spent 2 nights together in the tents. We talked about Christian life and ethic. We found it good new way to outreach to the new officers and build their faith during the adventurous trip. We thank God for the opportunity to attend ACCTS RMH. We will continually do the Mongolian RMH program in the future to build our disciples.

## Short updates from the entire Military Ministry.

70% of total personnel are the NCO. There is a huge need for the evangelism. Non-Commissioned Officers ministry has begun this year officially. We have had 10 new believers immediately for a month. Thank God for the rapid growth ministry.

We aim to keep our regular meeting on every Wednesday. Sumya, Undra lead it right now, we will hand over to Master Sergeant Bayartogtoh NCO ministry's leadership this month.

One of biggest spiritual needs is the Family issues. We always help military couples through the trainings, seminars and bible studies.

We thank God for the training. Now our 5 families became group leaders who can lead Family bible studies among soldiers. Now they will teach Family seminars to others not only staff members. Praise God.

Before the year began, we introduce to disciples what will happen this coming year. We shared about our vision and partnership opportunities with disciples. Thank God for their opened hearts.

"Significant Women" material is the most important bible study book for female soldiers.

We trained some our officers to become Bible study leaders. Now they will teach the Biblical values to fellow female soldiers.

### Prayer requests:

- 160 freshmen cadets will attend the Effective Study seminar on 6<sup>th</sup> October. We pray to share our faith with 60 of them after the program.
- Please pray for fund raising processes for 15 staff members. We are facing to the challenges to raise the fund for the salary and the ministry at the moment.

**In Sincerely yours,**

Sumya and Undra

Director of "Centurions" Mongolian Military Ministry
